Dear Ken,

Veronica and I want you to know we both appreciate all of your help and guidance in assisting with the sale of our home, our other houses and the purchase of our new home. We feel we received five star service on all four transactions.

As you know I took some time and had many interviews before I decided on a realtor. We had our home and two others to sell and I only wanted to use one realtor. The three homes were all in different price ranges from the mid \$250,000 to over a million dollars. It wasn't an easy task because you were dealing with buyers in three different price ranges. You clearly specialize in homes over a million dollars and proved it over and over again, but you also did a great job in the other price ranges. You sold all three homes in the timeframes you gave us. I must admit that on the last home, I doubted you would make the deadline, but sure enough, you brought us an offer with three days to spare.

You are a true professional and it showed in many ways. I was apprehensive for many reasons but I can say you did your best to make it easier on me.

If you ever have a seller or buyer that is in a quandary about choosing a realtor, you are more than welcome to have them call me for a recommendation.

Once again, thanks for all of your help. Please thank Cynthia for me for all of her hard work and cooperation.

Sincerely,

I. William Vinocur
